

Our Climate Action and Transition Targets and Pathways 2023—2030

<h2>Our Leadership</h2>	<p>Good by Nature: transformative Sustainability Action Plan in place</p>	<p>Founding member of the Climate Leaders Coalition Leading partner of The Aotearoa Circle</p>	<p>World's first fully certified Net Carbon Zero Beef product</p>	<p>Founding signatory to the Kai Commitment on food waste</p> 	<p>New Zealand's first red meat company to measure and disclose our carbon footprint</p> 	<p>Launched new purpose – creating goodness from the farms the world needs</p>	<p>Nature Positive Roadmap in place</p>	<p>Founding partner in the AgriZero NZ methane reduction joint venture with the New Zealand Government and industry partners</p>
<h2>On Farm</h2>	<p>Supported more than 2000 farmers to 'know your number' and develop emissions management plans</p>	<p>600 farms signed up to industry leading environmental assurance programme (NZFAP+) by 2024</p>	<p>Incentivising expansion and protection of on-farm vegetation through payments to farmers for sequestration services</p>	<p>Co-investing in nature-based solutions alongside farmers via Good for Nature Fund</p>	<p>Nature Positive premium paid to farms achieving highest environmental standards</p>	<p>Developed industry-leading technology to measure and map on-farm vegetation</p>	<p>Offered recovery support to farmers and communities following extreme weather events</p>	
<h2>Our Operations</h2>	<p>Reduce Scope 1 and 2 emissions by 42% by 2030</p>	<p>90% reduction in organic waste to landfill by 2024 10% reduction in inorganic waste to landfill by 2024</p>	<p>12% reduction in water use intensity (Million m³) by 2024</p> 	<p>4% reduction in total energy use by 2024</p> 	<p>900T CO₂-e emissions reduced by 2025 through energy savings</p>	<p>2% reduction in emissions through improved refrigeration efficiency by 2028</p>	<p>Reduce emissions from wastewater gas capture and flare by 15% by end of 2025</p>	<p>Zero Coal by 2030</p>
<h2>Our Value Chain</h2>	<p>Verified and disclosed full Scope 3 emissions including all on-farm methane emissions</p>	<p>Set validated Scope 3 science-based target in 2023</p>	<p>Set food waste reduction target by 2024</p> 	<p>Published full GHG Inventory in 2023</p> 	<p>Supplier code of conduct adopted</p> 	<p>Full Climate Change Risk and Opportunities Disclosure (utilising TCFD framework) published</p>	<p>Materiality for Nature assessment underway</p> 	<p>Set science-based targets for nature, and publish TNFD by 2025</p>
<h2>Our Brands and Products</h2>	<p>World-leading Net Carbon Zero Beef product to market in the US</p>	<p>Launch Net Carbon Zero Beef and Lamb in New Zealand</p> 	<p>First NZ food company to display carbon labelling on pack</p>	<p>Develop and scale full range of Net Carbon Zero products – beef, lamb, venison, leather, trim, and petfood in multiple markets by 2026</p>	<p>Develop full range of Nature Positive products to be launched in multiple markets</p>	<p>Click here for more information on Sustainability at Silver Fern Farms </p>
